

# Design Cad Software Training

Thank you for your enquiry regarding software training. At Design Cad we provide focussed, cost effective, one-on-one software training in a wide range of disciplines.

Courses are delivered by experienced lecturers and can be taken both 'in-house' or via a unique flexible (distance) e-learning system which mimics the one-on-one experience.

We offer a hybrid of the two learning modes in Canberra, ACT, where our distance students are supported by regular workshops.. Enrolment is continuous and most requests can be accommodated within 1.5 weeks of enquiry.

Our Computer Learning Centre is housed in the University of Adelaide Commerce and Research Precinct at Thebarton, South Australia. Thebarton is a suburb of Adelaide, the capital of South Australia and is close to the Central Business District.

A course normally takes a full day from 9.15 am to 4.30 pm.

The cost per course is \$A250.00 and includes GST. Payment is not required in advance. We will provide a tax invoice on completion of the course and we encourage payment by direct deposit to our bankers. Alternatively, we offer courses via a unique distance (or flexible) learning programme, where we post a multi media CD-ROM and workbook to you. We support you throughout your learning via email.

To enrol as an in-house student, email some possible dates to [info@designcad.com.au](mailto:info@designcad.com.au) or telephone 08 8354 2400 (International +61 8 8354 2400).

Find us: If you are travelling from the Adelaide city centre to Thebarton, come down Port Road to Phillips Street, which runs off Port Road just past the Coca-Cola factory and before the Southwark Brewery. There are traffic lights at the corner of the Port Road and Phillips Street. Proceed down Phillips Street until you come to an 's bend' in the road. Stirling Street is on your right at the 's-bend'. If you are travelling from the north, south or west of the city via South Road, turn east off South Road at the brickworks corner and head east up West Thebarton Road. When you reach the 's-bend', Stirling Street is on your left. Head north down Stirling Street until you see a pair of brick gates delineating the University Precinct. Park in the street or car park on the left, just before the gates. The entrance to the park has a notice saying that parking is restricted. Ignore this notice and park in our reserved spaces - Numbers 125, 126 or 49. If those spaces are taken, park anywhere there is a vacant space.

Our offices: The building housing our Learning Center (24 Stirling Street) is down a lane (Stirling Lane) opposite the car park gates. Our door is the third on the left. If you get lost, the mobile phone number for directions is 0418 414 932.

We will supply a set of course notes. The notebook has plenty of space in it for adding your own notes, so you do not need to bring a notebook.

Tea, coffee and biscuits are provided gratis during breaks. We visit Ricca Coffee house; a short walk away for refreshments.
